SHRI ASHOK SARIN

21st JULY, 1941

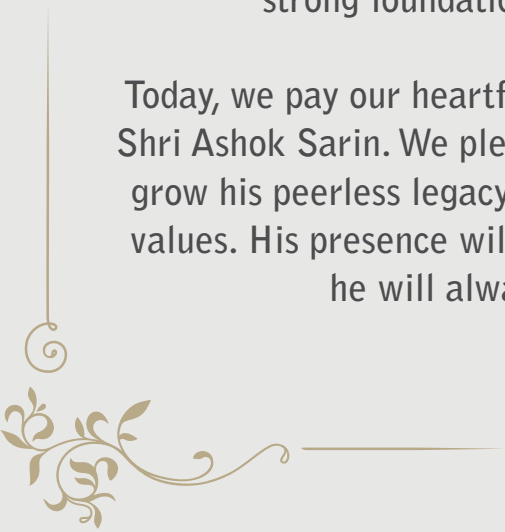

A TRIBUTE TO OUR FOUNDER

Shri Ashok Sarin founded the Anant Raj in the year 1969 with blessing from his parents, Lala Anant Ram Sarin and Smt. Raj Kumari Sarin. From these humble beginnings, he built Anant Raj into one of the most renowned, respected and recognised Company in Delhi/NCR over the past five decades, developing some of the best-known landmarks of Delhi.

Under the visionary leadership of our Founder, Anant Raj became synonymous with quality, execution, fairness and transparency – which are our strong foundation and core values.

Today, we pay our heartfelt tribute to our Founder – Shri Ashok Sarin. We pledge that we will continue to grow his peerless legacy, guided by his deep-rooted values. His presence will always shine the path and he will always be with us.

The real estate sector in India has been facing challenging headwinds for many years now. From supply overhang to subdued demand, from cost escalation to complex regulations – things were looking dull and depressing. The global COVID-19 pandemic made matters worse.

The entire real estate space seemed to be at its lowest ebb.

But then, as they say, every ebb is followed with a rise.

Since the beginning of 2021, there has been a remarkable resurgence in sentiments and confidence. With vaccination in full-swing, and controlled easing of the lockdowns, things are gradually returning to normal. From January 2021, there has been a marked pickup in demand for residential homes. At our Anant Raj Estate township, we saw increase in demand for Plots and other inventories of Anant Raj Estate township. We are adding more Lands in our existing township resulting in enhancement of inventory by more than 50,000 sq. yards in our Anant Raj Estate township. We have successfully completed Anant Raj Floors - Independent Floor Project in Phase 1 within the township. Anant Raj Estate "Executive Floors" and Anant Raj Estate "Premier Floors" – of the project which is expected to be launched in Q3 of FY 2022. In other segments like commercial and hospitality too, there is an unmistakable surge in demand. The Company's JV-Avarna Projects LLP with Birla Estates has successfully launched the construction of Independent Floors. The second phase of project is likely to be launched in Q3 of FY 2022. **Adding to this is the emerging opportunity of growth in new segments like Data Centers and Warehouses infrastructure.**

The signs are clear - after many years, the real estate space in India is again looking upward and attractive.

As one of the leading real-estate players in NCR with over five decades of experience and expertise **with 5.5 million sq. ft. (msf) of commercial assets, of IT Parks that can be converted into Data Centers, two Hospitality Assets and free hold fully paid low cost lands at prime location – Anant Raj is poised for a bigger growth.**

ANANT RAJ: BUILT ON CORE VALUES OF QUALITY, EXECUTION FAIRNESS AND INTEGRITY

Anant Raj is amongst the leading and most recognised real estate developers in the National Capital Region (NCR). A symbol of excellence in construction and infrastructure development, we have a long experience spanning over 50 years during which we have built diverse competencies - from luxurious flats and villas to residential townships and affordable housing societies, and from grade A commercial properties to world-class hotel properties.

We have an enviable track record of identifying several high potential locations and converting them into prime locations with our projects. Leveraging our expertise in real estate, we are focused on giving best living and work experiences to the citizens as well as contributing to the nation development.

The Strength Lies at the Core

NCR Focus and Expertise

We solely operate and have maintained unwavering focus in the NCR region. Deep understanding of this market and its regulations, strong relations with local supply chain, and ready access to highly skilled contract workers, makes us a top player in the region.

Large, Premium Landbank

We hold one of the largest landbanks at premium and strategic locations in NCR. Acquired at low-cost, these fully paid and ready-to-develop landbanks offer advantage of immediately commencing any form of real estate development including high-end residential homes to affordable housing to hospitality projects. Being in right locations and given our reputation, these Landbanks have high realization potential.

85 acres

Of fully paid, ready-to-develop landbank in NCR

Presence Across all Segments

Our well-diversified business spans residential (township, affordable housing, luxury flats, villas), commercial and hospitality segments. These comprise saleable units that generate income with capital appreciation and the lease properties that generate consistent cash-flows in the form of lease and rental incomes.

Our diverse assets comprise:

Township - Iconic Anant Raj Estate township spread across 175 acres located at sector 63A of Gurugram. It is our flagship residential asset comprising villas, plots, independent floors.

IT Parks - Trade Centre at Rai, Tech Park at Manesar and Tech Park at Panchkula

Retail - Shopping malls in Karol Bagh

Hospitality assets - Two hotels (Bel La Monde and Stellar)

Commercial assets - Office Building at Sector 44 Gurugram

The Anant Raj Brand

With a sterling track-record of over a period of 50 years that has seen the group delivered over 20 msf of real estate that includes some of the most well-known landmarks in NCR, Anant Raj is today amongst the most trusted brands in the real-estate in NCR. From home-buyers to hotel operators and from state governments to supply partners, Anant Raj stands apart as the preferred partner of choice. Our recent joint-venture with the esteemed Birla Estates – part of the Aditya Birla conglomerate, has validated the strength and reputation of Anant Raj as the leading name in real estate in NCR.

CHAIRMAN'S MESSAGE

Lala Anant Ram Sarin and Smt. Raj Kumari Sarin

■ ■
TO ENSURE BUSINESS HEALTH, WE PUSHED BACK NEW PROJECTS AS DEMAND WAS LOW AND INSTEAD FOCUSED ON MAINTAINING ADEQUATE LIQUIDITY AND BALANCE SHEET INTEGRITY. WE CONTINUED TO MAINTAIN SHARP FOCUS ON REDUCING DEBT WHICH STOOD AT ₹ 1515.93 CRORE AS ON MARCH 31, 2021.

Dear Shareholders,

With the blessings of Lala Anant Ram Sarin and Smt. Raj Kumari Sarin, I am delighted our FY 2020-21 report, the first one post our demerger of Anant Raj Limited into Anant Raj Limited and Anant Raj Global Limited. With all legal processes and formalities relating to demerger complete, we are now filled with renewed enthusiasm and energy to move towards a better future and create value for all stakeholders.

The impact of the pandemic was evident in the real estate industry. The lockdown and the subsequent unavailability of labour and raw materials in the first half of FY 2020-21 saw the entire industry face delays in project execution. The demand too bottomed in line with low consumer confidence. In the second half of the fiscal, the economy bounced back and consumer confidence improved. This along with a huge pent-up demand led to a steady pick-up in real estate demand since January 2021.

Focusing on Priorities

At Anant Raj, our top priority in these times was the safety of our people. We adopted all safety guidelines as mandated by the Government including temperature checks, regular sanitization of facilities and maintaining social distancing. To ensure business health, we pushed back new projects as demand was low and instead focused on maintaining adequate liquidity and balance sheet integrity. We continued to maintain sharp focus on reducing debt which stood at ₹ 1,482.97 Crore as on June 30, 2021. You will appreciate that its more than two years now that the Company has not taken any fresh loans.

Despite the execution difficulties, we made efforts to ensure timely deliveries, a track record that we have maintained since inception. That said, the unprecedented nature of crisis led to some delays, and this was a trend all through the industry. I appreciate the patience shown by our home buyers and assure them that we are now much better prepared and have all resources in place to ensure fast execution.

Considering the impact of pandemic on the weaker section of communities, we also undertook to distribute food and safety kits to needy people.

Performance Review FY 2020-21

Our performance reflects the market sentiments. Our total income for FY 2020-21 was ₹ 275.51 Crore as against ₹ 417.60 Crore last year. EBITDA increased by 4.67% to ₹ 69.85 Crore due to a sharp decline in construction related expenses. PAT though declined 26.38% to ₹ 20.12 Crore due to higher finance costs. Our balance sheet position continues to be strong with net worth of ₹ 2,468.16 Crore as on March 31, 2021.

In affordable housing segment, we adopted a cautious approach and delayed projects given the market situation. However, with residential recovery in sight, we have made all groundwork and are all set to soon commence Aashray II project in Tirupati, Andhra Pradesh involving development of 2,000 affordable homes. The other project of 1,600 affordable homes at Sector 36A in Gurugram through a JV with Adani will follow soon. We already have deep competencies in this segment with our track record of delivering 2,600 affordable homes at our Anant Raj Aashray project in Neemrana, Rajasthan. We will continue to build on it.

In the commercial segment, 20% of our 5.5 msf of commercial space was occupied, generating a consolidated lease income of ₹ 14.54 Crore in FY 2020-21. The low occupancy has been a result of pandemic whereby several companies adopted work from home model. Given these properties are Grade A and amongst the best in Delhi and NCR, we are confident of improved occupancy as the market situation improves and demand for ready-to-occupy commercial space returns.

In the hospitality segment, we have finalized plans to upgrade our existing Stellar (Earlier Mapple Emerald) and Bel-La Monde properties with additional construction subsequent to increase in FAR. The new FAR rule also makes our huge ready-to-develop landbanks an attractive option of large hotel chains with whom we are actively exploring opportunities.

In the residential segment, Anant Raj Estate Township in sector 63A of Gurugram is our landmark project. It comprises Luxury Villas, Independent Floors, Group Housing, Plots and Commercial Spaces. Considering its prospects, we have entered JV with Birla Estates, Adani and Ireo to further expand revenues in this area. Avarna Projects LLP, our JV with Birla Estates made good progress in executing Birla Navya project, the Phase I of which has been almost completely sold out and Phase II is planned to be launched in Q3 of FY 2022.

In our operations, we undertook a calibrated approach by focusing on areas where growth was visible.

Ready to Ride the Wave

After a downslide, the real estate market is now showing green shoots with positive sales momentum. This is more so in the residential segment which is witnessing increased demand due to a growing trend of study and work from home as buyers seek bigger and better homes. Considering the positivity, we have expedited development of existing projects and are actively considering

starting newer ones of affordable housing. We also look to explore development opportunities at our vacant plots in Anant Raj Estate Township.

We are confident of generating strong cash flows from realization of these assets, and effectively channelizing them towards clearing debt and thus improving profitability.

We also see strong growth opportunities in the Data Centers and Warehousing segments, thanks to the visionary leadership of the Central Government. With rapid digitalisation in India, further accelerated by the pandemic, huge amount of data is being generated, necessitating the need to store them safely and cost effectively. Riding on this, the Government called for the need to develop world-class Data Centers (DCs) in India to store data locally. At Anant Raj, we see this as a huge potential for upside. Our three IT Parks are perfectly suited to develop tier III and IV DCs with a total IT load capacity potential of 300 MW. Starting with developing an 8 MW IT load capacity at our Manesar IT Park in FY 2021-22, we intend to add more capacities over the years.

The Government's call for Make in India and Atmanirbhar Bharat are other initiatives that are paving the path to make India a manufacturing hub. The impact of this is visible in increased demand for storage space from e-commerce, food and pharmaceutical industries. We have identified ~84 acres from our landbank to develop world-class customised warehouses.

Closing Comments

I thank all our stakeholders for their unstinted support in these challenging times. The property buyers who continue to trust Anant Raj brand, the business partners who enabled us carry out operations with ease and the employees who rallied to keep the business running.

Finally, I believe that the coming days are going to be exciting and we are leaving no stone unturned to make the most of the opportunities.

Warm regards,

Ashok Sarin
Chairman

ALL SET TO RIDE THE WAVE OF RESURGENCE IN RESIDENTIAL DEMAND

The Indian Residential market, after a long slump, is now resurgent. Improved consumer confidence, support from the Government in the form of subsidies and stamp duty cuts in certain states and a huge pent-up demand are triggering revival. While the long-term fundamental of the industry was always strong due to massive housing shortage, the new normal of work and study from home have unleashed a new demand for upgrading to better and bigger homes.

Surging Ahead at the Iconic Anant Raj Estate Township

Anant Raj Estate Township at sector 63A, Gurugram, Haryana is one of our flagship projects comprising luxury Villas, Plots, Flats, Commercial and Office Complexes. Spread across an area of ~175 acres. The remaining area has a real estate development potential of 7 million sq. ft with an estimated revenue potential of ₹ 6,000 Crore. Being one of the most demanded locations in the NCR and with revival in real estate demand, we are undertaking concerted efforts to unleash its potential.

JV with Birla

Confident of the huge potential and demand of the township, Birla Estates Private Limited made their first-ever venture into real estate segment by entering a JV with us to develop 764 Independent Floors across 191 plots. They have also committed massive investments in marketing this project – Navya Birla – which has not only driven its sale but has also rejuvenated the allure of township which is now witnessing renewed demand.

The first phase of Navya Birla comprising 300 Floors has been booked to the extent of 90%.

Developing Own Plots

We have embarked upon plans to develop vacant plots at our township. With necessary permissions in place and leveraging our development expertise, we expect to soon generate revenue from it.

Exploring New Opportunities

The recent developments at Anant Raj Estate have elevated the importance of Sector 63 A Gurugram. We intend to capitalise on this by acquiring several small plots in its vicinity at attractive valuation, get necessary permissions and develop them. Being in vicinity of our township, we expect to drive synergies from our resources.

Reviving Focus in Affordable Housing

Affordable Housing is one of the most high-potential residential segments in India given majority of the population are in the middle to low income group. It is also a key thrust areas for the Government to fulfill the vision for providing houses to all citizens.

Anant Raj with its expertise has been one of the pioneers in this segment. We have successfully delivered a 2,600 units affordable housing project in an industrial colony in Neemrana, Rajasthan. We are now leveraging this experience to develop two other projects which are in pipeline:

- A 2,000 affordable homes project across 10.14 acres land in APIIC's (Andhra Pradesh Industrial Infrastructure Corporation) industrial colony at Tirupati
- A JV project with Adani Group to develop 1,600 affordable homes across 11.76 acres land with a saleable area of 1.3 msf at our Sector 36A, Gurugram land bank

However, given the pandemic situation, these projects were put on hold. With demand now reviving, we have completed all formalities and will soon commence developing the Tirupati project. The project with Adani will soon follow.

ALL SET TO RIDE THE WAVE OF UNFOLDING OPPORTUNITY IN DATA CENTERS

Data Centers (DC): The Next Big Play in Real Estate

New India is aspirational and digital. This is leading to a huge spurt in data consumption and generation, which is only expected to grow exponentially with increased smart phone and internet penetration. This makes storing data locally more feasible due to the advantage of cost, better maintenance, and scalability potential. The Government's noteworthy initiative for self-reliance and data protection through data localisation is further thrusting the demand for quality DCs.

Striding Ahead on the DC potential

Leveraging Ready Infrastructure

At Anant Raj, we have three Tech Parks at Rai, Manesar and Panchkula that have necessary permissions and infrastructure for developing DCs, making them perfectly suited for it. We plan to effectively utilise these spaces to develop Tier III and Tier IV DCs.

In the first phase, an 8 MW tier III DC will be developed at IT Park Manesar by Q1 of FY 2022-2023. Permission for another 21 MW is being sought.

Overall, we plan to develop 150 MW of IT load capacity with minor modifications at these parks. Another 150 MW IT Load Built-to-Suit DCs is planned to be developed in the 20 acres of greenfield land at these IT Parks that have all statutory clearances.

Raising Capital to Fund

Our Board has approved preferential issue of 2.90 crore fully convertible warrants to raise additional capital of ₹ 163.42 Crore. This will be effectively used for funding this venture.

Augmenting Capabilities with Alliances

We are exploring strategic alliance with international partners who have strong expertise and technical know-how in developing DCs. This will enable us to develop world-class facilities capable of providing cost-effective data storage solution with the advantage of zero maintenance, high-end protection and risk management.

Warehouses: India's Need of the Hour

E-commerce boom and the rising need for cold chains from India's fast-growing food and bio-pharmaceuticals segments are driving the demand for quality warehouses. Favorable Government policies along with rising importance of India to become a global manufacturing hub are further enhancing prospects.

At Anant Raj, our huge (~85 acres) ready-to-develop land parcels within NCR, a key trade hub, along with robust execution capabilities position us attractively to capitalise on these opportunities. Having the advantage of 100% FDI and larger / safer returns, we expect to generate steady rentals from these assets.

2. OPERATIONS REVIEW AND THE STATE OF COMPANY'S AFFAIRS

A. Operational and Financial Overview

The Company and its Subsidiaries and Associates are primarily engaged in the business of Construction and Development of Residential, Commercial, Hospitality, Affordable Housing and IT Parks.

The prime focus of the Company has always been executing and ensuring timely completion and deliveries of all its projects being developed in various verticals as mentioned above.

Your Company, during the year under review, has posted Standalone Net Profit after tax of ₹ 2011.43 Lakh as compared to ₹ 2733.18 Lakh during the previous year.

Your Company, during the year under review, has posted Consolidated Net Profit after tax of ₹ 1064.64 Lakh as compared to ₹ 2673.51 Lakh during the previous year.

Rental and Services Receipts

The consolidated rental and services receipts of your Company, during the period under review were ₹ 1454.28 Lakh as compared to ₹ 2846.43 Lakh.

B. Future prospects and outlook of the Company

The real estate market is perhaps, one of the fastest growing segment in the world owing to constant demand for better residential, commercial, as well as hospitality spaces. As the world continues to grow and change with times, so do their requirements in terms of housing, businesses, and more. They seek the best for themselves, and the ability to show it through the place where they work, reside, or just enjoy.

Real estate is indeed headed towards an all-inclusive technological upgradation in the form of home automation via Internet of Things (IoT), Artificial Intelligence (AI), and other such innovation judging by latest developments in this field.

The real estate sector is leveraging IoT and AI to cater to the niche segment of smart homes given the appreciation and better resale value of such properties.

Impact of Covid-19

After temporary shocks in light of structural reforms such as GST and RERA, the enhanced liquidity in the banking system and a restoration of buyer confidence were slowly trickling through in the real estate sector before COVID-19 hit Indian shores. Therefore, the pandemic-influenced slump is, at best, a short-term blip across all sectors of the economy. With the rollout of the vaccine and resumption of normalcy, the real estate market will certainly bounce back with renewed vigor.

For real estate, as for many things, 2020 was a strange year. As we move forward, 2021 will see a steady flow of investment as easy liquidity by global central banks will ensure interest rates are low and funds will chase investments with high yields. Following SEBI's amendment of the rules of REITs, one can expect an inflow of investment in commercial real estate that offers lucrative returns as compared to other investment avenues.

OPERATIONS

Your Company, Anant Raj Limited is poised for a massive turnaround in all the verticals it operates in.

Anant Raj Estate in Sector 63A Gurugram, Company's flagship project, is witnessing increase in demand mainly due to shift in thought process where customers now want ready to move in flats/floors/villas.

Haryana Government has allowed higher FAR resulting in extra Floor space in each building. This has made the flats more affordable. Your Company has always worked with focus on execution and delivery, so as to smoothen the process of moving in by prospective buyers.

Recently, demand of Data Centers in India has come as a boon to your Company. We have approximately 5 million sq. ft. ready space in building already constructed. With enhancing the security cover and power back-ups, the available space will cater to upcoming demand of Data Centers.

The Company holds prime land in Delhi and these land parcels are poised for massive expansions due to recent changes in development norms.

Affordable housing is a growing market. After successfully completing and delivering 2600 affordable houses in Neemrana, Rajasthan (Anant Raj Aashray), under affordable housing, the Company has launched its second project "Anant Raj Aashray II" in Tirupati, Andhra Pradesh for building 2000 affordable houses. One affordable housing project is in pipeline in Sector 36 A Gurugram, in a joint venture with Adani Realty. The project will develop approximately 1600 affordable houses, Aangan Aashray.

A brief on all projects is given below:

a) Residential:

Your Company's primary focus is on the development of the Company's prime residential and integrated development project Anant Raj Estate at Sector 63A, in South Gurugram. The total land owned by the Company is approximately 165 acres with a development potential of 7 million sq. ft.

The project is titled as Anant Raj Estate. It comprises construction and development of luxury villas, plots, residential flats, independent floors and commercial complex. The Company is receiving positive response from prospective buyers. The Company has completed the first phase of the project. This project alone is expected to add ₹ 6,000 crore to the Company's total revenues which includes revenue from Joint Venture with Birla Estates Private Limited. It is Company's iconic and ambitious project till date. It has received one of the fastest partial completion certificates for its residential colony that constitutes around 70% of the total area.

- **JOINT VENTURE WITH BIRLA ESTATES PRIVATE LIMITED**

Your Company has entered into a joint venture agreement (JV) with Birla Estates Private Limited for the development of residential complex at Sector 63A Gurugram, Haryana. The JV created in the form of a 50:50 Limited Liabilities Partnership is called "Avarna Projects LLP". The Company will contribute the project land and Birla Estates will develop and market the residential project developed on this land. The project envisages development of 764 luxury floors built over 191 plots in the sector 63 A Township of Anantraj Estate. The expected revenues out of the said sales would be approx. 2,200 crore over a period of next 3 years. Tremendous response has been received for 1st phase of the project and 90% of the inventory for 1st phase has been booked.

- **Affordable Housing Projects**

Anant Raj is one of the pioneers in delivering affordable homes, which is in line with Hon'ble Prime Minister's vision of "Housing for all".

The Company on account of its expertise in affordable homes has recently bagged a project from APIIC (Andhra Pradesh Industrial Infrastructure Corporation) to develop 2000 affordable homes in the holy city of Tirupati (Andhra Pradesh). The project is spread over an area of 10.14 acres in an industrial colony developed by APIIC. Tirupati project will commence in 2022-23, with a completion target by 2025-26. The Company has formulated a SPV by the name "Jai Govinda Ghar Nirman Limited" for development of this project. It plans to develop 2BHK units with a targeted sale price of ₹ 12-15 lakh only per unit. The project will be launched within this financial year.

iii) SECRETARIAL AUDITORS AND SECRETARIAL REPORT

Pursuant to the provisions of Section 204 of Companies Act, 2013 read with Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the Company had appointed Ms. Priya Jindal, Company Secretary in practice to undertake the Secretarial Audit of the Company. The Secretarial Audit Report for the financial year ended March 31, 2021, is annexed herewith as **“Annexure-VII”**.

Explanation to the observations in secretarial audit report:

The Secretarial audit report for the year 2020-21 contains following observations.

1. Non-compliance/Delayed Compliance under Regulation 31 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 for submission of Shareholding Pattern within the period provided under regulation for the quarter ended June 30, 2020.
2. Non-compliance/Delayed Compliance under Regulation 33 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 for submission of Annually/Quarterly financial results for the quarter/annual ended March 31, 2020.
3. Non-compliance/Delayed Compliance under Regulation 76 of SEBI (Depositories and Participants) Regulations, 2018 for submission of Reconciliation of Share Capital Audit Report for the quarter ended June 30, 2020.
4. Non-compliance/Delayed Compliance under Regulation 24A of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with SEBI circular no. CIR/CFD/CMD1/27/2019 dated February 8, 2019, for submission of Annual Secretarial Compliance Report for the financial year ended March 31, 2020.
5. Non-compliance/Delayed Compliance under Section 123 of the Companies Act, 2013 for the payment of dividend to the promoter Group declared at the Annual General Meeting held on December 30, 2020.
6. Non-Compliance for the maintaining of maximum time gap of one hundred and twenty days between two Board and Audit Committee Meetings under Regulation 17(2) and 18(2)(a) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

In this regard, it is submitted that

1. The Company received the Notice regarding the Non-Compliance/Delayed Compliance under Regulation 31 for the late filing of shareholding pattern for the quarter ended June 30, 2020 from the Stock Exchanges (BSE Limited & National Stock Exchange of India Limited). The Company filed the Shareholding pattern for the quarter ended June 30, 2020 after due date i.e. on August 10, 2020 which was mainly due to irregular attendance of staff due to CoVid-19 pandemic. The concerned Stock Exchanges had levied the fine and the same was also paid to Stock Exchanges.
2. The Company received the Notice regarding Non-Compliance/Delayed Compliance under Regulation 33 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 for late submission of Annually/Quarterly financial results for the quarter ended March 31, 2020 from the Stock Exchanges (BSE Limited & National Stock Exchange of India Limited). The Company submitted the financial results after the due date because of the two genuine reasons namely **firstly**, the Composite Scheme of Arrangement for Amalgamation and Demerger ('Scheme') was pending before the National Company Law Tribunal, Chandigarh Bench (NCLT) and appointed date of the scheme was September 30, 2018 and the approval of the NCLT was received on August 24, 2020 which was made effective on August 25, 2020. Pursuant to the scheme so approved by the NCLT, accounting treatment has to be given effect in the financial statements for the year ended March 31, 2020 and figures for the year ended March 31, 2019 are also to be restated for which the management needs time to prepare the financial results which will give effect to the terms of the said scheme. The **second** reason of delay was that the auditor of the Company was suffering from the Covid-19 and he was not available to support the company in preparing the financial results. The concerned Stock Exchanges had levied the fine and the same was also paid to Stock Exchanges.
3. For the quarter ended June 30, 2020, the Company filed the Reconciliation of Share Capital Audit Report on August 2, 2020 i.e. with a delay of two days.
4. The Company filed the Annual Secretarial Compliance Report for the financial year ended March 31, 2020 after due date i.e. on September 17, 2020 which was mainly due to difficulties and challenges faced by Company and Secretarial Auditor, Practicing Company Secretary due to the continuing impact of the CoVID-19 pandemic.
5. No Dividend has been paid to the Promoter Group of the Company as the Promoters of the Company waived off the receipt of Dividend declared at the Annual General Meeting held on December 30, 2020.
6. The Company made Non-Compliance for the maintaining of maximum time gap of one hundred and twenty days between two Board and Audit Committee Meetings under Regulation 17(2) and 18(2)(a) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as the Composite Scheme of Arrangement for Amalgamation and Demerger ('Scheme') was pending before the National Company Law Tribunal, Chandigarh Bench (NCLT) and appointed date of the scheme was September 30, 2018 and the approval of the NCLT was received on August 24, 2020 which was made effective on August 25, 2020. Pursuant to the scheme so approved by the NCLT, accounting treatment has to be given effect in the financial statements for the year ended March 31, 2020 and figures for the year ended March 31, 2019 are also to be restated for which the management needs time to prepare the financial results which will give effect to the terms of the said scheme.

Further, pursuant to the Regulation 24A of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with SEBI Circular No CIR/CFD/CMD1/27/2019, dated February 08, 2019, the Annual Secretarial Compliance Report for the financial year 2020-2021 was filed with Stock Exchanges(s), i.e. BSE Limited and National Stock Exchange of India Limited, on June 24, 2021.

In terms of section 204 of the Companies Act, 2013 on the recommendation of the Audit Committee, the Board of Directors of the Company appointed Ms. Priya Jindal as the Secretarial Auditor of the Company for the financial year 2021-2022. The Company has received her consent for the said appointment.

iv) INTERNAL AUDITORS

The Board of Directors of your Company had appointed Mr. Vineet Kumar, Chartered Accountant, as the Internal Auditors of the Company pursuant to the provisions of Section 138 of the Companies Act, 2013 for financial year 2020-2021 and the reports on periodical basis submitted were place before the audit committee and Board of Directors.

The Board on the recommendation of the Audit Committee has appointed Garg Kumar & Associates, Chartered Accountant, New Delhi as the Internal Auditors of the Company for the financial year 2021-22.

13. OTHER DISCLOSURES**A. Disclosure of Related Party Transactions**

The related party transactions are periodically placed before the Audit Committee/ Board of Directors for their consideration and approval. There were no materially significant related party transactions which have potential conflict with the interests of the Company at large. All related parties transactions have been transacted in the ordinary course of business and on arm's length basis.

The Audit committee has granted an omnibus approval for such related party transaction where the need cannot be foreseen and aforesaid details are not available in accordance with Regulation 23(3) of the Listing Regulations, and the Committee also reviews the related party transactions on quarterly basis.

The Board has formulated a policy on Related Party Transactions and it may be accessed at Weblink: https://www.nseprimeir.com/z_ANANTRAJ/files/policy%20on%20related%20party%20transactions.pdf

The details of related party disclosures with respect to the loans/advances/investments with the subsidiaries or associates or any other entity in which directors are interested at the year end and maximum outstanding amount thereof during the year, as required under Part A of Schedule V of the Listing Regulations have been mentioned in the Notes No 41 of the Standalone Financial Statements for the financial year ended on March 31, 2021.

B. Disclosure of Accounting Treatment

There has not been any change in accounting policies of the Company during the year.

C. Risk Management

The Company has adopted a Risk Management Policy. It has laid down the procedures to inform the Board members about potential risks, their assessment and control. These procedures are periodically reviewed to ensure that the executive management controls risks by means of properly defined framework of policies and strategies.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/ Joint Ventures/ Suppliers/Contractors/NGOs /Others?

Good governance is the common underlying principle for all successful organizations. To ensure transparent communication and ethical conduct at all levels of the value chain, the Company has a dedicated Code, which is applicable to all its employees, subsidiaries and joint ventures. The Company also encourages its business partners to follow the code.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

The Company has a dedicated mail id to which the stakeholders may address their queries/complaints. The Secretarial Department caters to the needs of the investors. A summary of the complaints received and resolved during the year is provided in a separate section of the Corporate Governance Report attached to the Directors Report. As at the end of the financial year there were no queries pending which needed to be addressed.

Principle 2: Business should provide goods and services that are safe and contribute to sustainability throughout their life cycle

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

- Residential
- Commercial
- Townships

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product(optional):

- (a) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?

For the 'products'; in order to conserve water resources, usage of ground water and potable water from corporation supply has been stopped for construction activities in Gurugram. Alternatively, treated STP water is being sourced.

(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

It is difficult to quantify the exact quantity in terms of reduction achieved in energy and water by the consumers. However, there are STPs installed in all our project locations and the STP water is used for landscaping, flushing and cooling in DG sets, thus reducing the use of fresh water. With respect to energy, various initiatives and use of high efficiency equipment for lighting (LED fixtures), electrical and Heating, Ventilation and Air Conditioning (HVAC) systems have resulted in huge savings. For Glazing, Double Glazed Units are used which reduce the HVAC load and electricity consumption further. As a responsible organization, Solar Photovoltaic systems have and are being installed on rooftops to meet the renewable energy requirements.

3. Does the Company have procedures in place for sustainable sourcing (including transportation)?

Yes

If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

The below mentioned strategies have been used across projects for ensuring sustainable source:

- 60-70% of the raw materials are obtained locally, i.e., within a distance of 400-500 kms.
- Materials with high recycles content are given preference to avoid stress on virgin materials.

4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?

Yes

(a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

- Local vendors are preferred for raw materials and equipment needed during the construction.
- Selection is done based on quality and preference is given to the local vendors.

5. Does the Company have a mechanism to recycle products and waste?

Yes

If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

- Construction waste in the form of debris is segregated based on its utility and reused on site for backfilling or levelling purpose.
- Construction waste in the form of rebars is reused on site in boundary wall or other non-load-bearing areas.
- We treat 5-10% of the organic waste during operation.

Principle 3: Business should promote the wellbeing of all employees:

The Company acknowledges the immense potential of its human capital. The Company believes that its success depends on its ability to develop knowledge, skills and expertise of its employees. The Company comprises of highly committed employees from diverse backgrounds.

- Employees with Disabilities: NIL

Principle 4: Business should respect the interest of and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized.**1. Has the Company mapped its internal and external stakeholders? Yes/No**

Yes, The Company has mapped its internal and external stakeholders. The key stakeholders of the Company includes its Customers, Regulatory Authorities including the Government, Employees, Vendors, Contractors, Bankers, Investors and Shareholders. The Company believes that the stakeholder engagement is the greatest source of input for its development activities and it also broadens the horizon for improving the Company's sustainability performance.

2. Out of the above, has the Company identified the disadvantaged, vulnerable & marginalized stakeholders?

Yes, all the stakeholders are equally important for the Company and none of the stakeholders are considered as disadvantaged, vulnerable and marginalized.

3. Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders. If so, provide details thereof, in about 50 words or so.

Not Applicable

Principle 5: Business should respect and promote human rights.**1. Does the policy of the Company on human rights cover only the company or extend to the Group / Joint Ventures/ Suppliers / Contractors /NGOs/Others?**

The Company recognizes and respects the human rights of all relevant stakeholders, including that of its employees, viewers, shareholders, investors and the public at large. Further, the Company strives to abide with the aforesaid principle and discourage violating practices by any third party to the extent possible. The Company shall also not be complicit with human rights abuses by a third party. The Company's commitment to follow the basic principles of human rights is reflected in the checks and balances within the HR processes. The Company does not hire child labour, forced labour or involuntary labour. The Company never discriminates between its employees. This practice extends to the Anant Raj Group as a whole. Our 'Prevention of Sexual Harassment' Policy has been adopted on the Company-wide level to ensure the respect and dignity of all its employees.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

The Company has not received any complaints from any stakeholders.

Principle 6: Business should respect, protect and make efforts to restore the environment.

1. Does the policy related to Principle 6 cover only the Company or extends to the Group/Joint Ventures / Suppliers / Contractors / NGOs/others.

Management Discussion and Analysis

ECONOMY OVERVIEW

GLOBAL ECONOMY

Global economy is slowly recovering from the economic impact triggered by COVID-19 pandemic in 2020. Aggressive and swift monetary, fiscal and financial policies all around the world led to a stronger-than-expected economic recovery across regions in the second half of 2020. The International Monetary Fund (IMF) has estimated global economic growth to have contracted by 3.3% in 2020.

As per the IMF World Economic Outlook, April 2021, the global economy is projected to grow by 6.0% in 2021 and 4.4% in 2022, due to additional policy support in a few large economies and expectations of widespread vaccination. The large-scale policy response initiated in 2021 across some countries, including in the United States and Japan, together with the Next Generation EU funds announced by European Union, is expected to reset economic growth onto a higher and more sustainable path. Several countries that are currently facing renewed waves of contagion or new viral strains have been forced to re-impose restrictions which might delay the return of normal economic activity. Differences in vaccination rates, path of the pandemic and the effectiveness of policy support will result in speed of projected recovery varying across countries.

INDIAN ECONOMY

The unprecedented COVID-19 pandemic had severe impact on Indian economy in FY 2020-21, with GDP in Q1 FY 2020-21 contracting 24% as compared to same period last year. Reserve Bank of India (RBI) provided liquidity and other support (including forbearance measures) and the government announced fiscal stimulus to recover the economy. With the gradual easing of lockdown restrictions by the Government, the economic trajectory witnessed a growth revival in second half (H2) of FY 2020-21. With the level of activity recovering at a faster rate than expected and a consistent decline in COVID-19 cases, the Indian economy is expected to have contracted by 7.3% in FY 2020-21 as compared to growth of 4.0% in FY 2019-20. The recovery was driven by good performance in farm, service and construction

sectors. Real GVA in construction improved to 6.5% in Q3 FY 2020-21 and 14.5% in Q4 FY 2020-21 from a contraction of 49.5% in Q1 FY 2020-21.

A sharp spike in COVID infections during April-May 2021 and subsequent re-imposition of lockdowns and restrictions by several states are likely to temporarily delay the recovery. The RBI estimates the Indian economy to grow 9.5% in FY 2021-22 on the basis that the impact of second wave of COVID-19 will be momentary. Likelihood of sharp capex revival and opening up of economy across industries post ramp up of vaccination programme along with improving recovery rate, low interest rate scenario, improvement in GST collection and controlled inflation are likely to aid economic growth in India.

INDUSTRY OVERVIEW

INDIAN REAL ESTATE MARKET

The Indian real estate sector plays a crucial role in the economic development of the country as it accounts for about 13% of Indian Gross Domestic Product (GDP). The housing/construction and Real Estate Sector supports more than 350 ancillary industries in the country. Residential Real Estate segment which already witnessing downturn since last few years was on the verge of revival due to systematic structural reforms and policies undertaken such as the implementation of the Real Estate (Regulation and Development) Act (RERA), GST etc. The Indian government's call to provide 'Housing for All' had also brought affordable housing to the limelight, boosting demand for the previously suppressed sector. The gradual recovery that was seen post various reforms came to a standstill in March 2020 due to COVID-19 pandemic which restricted mobility and nationwide lockdown. Once the unlocking process was initiated in the third quarter of 2020, both the residential and office markets started showing promising signs of revival. Moreover, uncertainties surrounding the economy and jobs reduced in Q4 FY 2020-21, which led to an increase in the pace of recovery path.

Recent Government's Policy Support to the Indian Real Estate Sector

- To address the need for decent rental housing at an affordable rate, the government has planned Affordable Rental Housing Complexes (ARHCs) for migrant workers/urban poor under Pradhan Mantri Awas Yojana - Urban (PMAY-U). In October 2020, the Ministry of Housing and Urban Affairs (MoHUA) launched an affordable rental housing complex portal.
- ₹ 70,000 Crore boost to housing sector and middle income group through extension of Credit Linked Subsidy Scheme for MIG under PMAY(U) upto March 31, 2021.
- An additional outlay of ₹ 18,000 Crore for the urban housing scheme (PMAY-U) in Atmanirbhar 3.0.
- The Government approved a Special Window for Completion of Affordable and Mid-Income Housing (SWAMIH) investment fund on November 6, 2021. This fund will provide debt financing to complete stalled housing projects across India and thus provide relief to buyers.
- The Ministry of Housing and Urban Affairs has recommended all the states to consider reducing stamp duty of property transactions in a bid to push real estate activity, generate more revenue and aid economic growth. Consequently, National Real Estate Development Council – Maharashtra announced zero stamp duty on housing sales until December 31, 2020.
- In March 2020, RBI had announced moratorium on repayment of term loans to provide relief to borrowers impacted by the COVID-19 related disruptions. Initially, the moratorium was allowed till May 31 but was subsequently extended by another three months, to August 31, 2020.

Key Industry trends

- **Need for larger homes:** With the forced lockdown, continued Work from Home (WFH) and online schooling, people are now eyeing larger homes even if they have to move to the peripheries to fit their budgets. There is high demand for 2.5 BHK and 3.5 BHK configurations where extra space can be converted into a makeshift workspace.
- **A rise in demand for Plotted Developments:** Self-owned homes (villas or row houses) provide better social distancing compared to the apartments. As a result, demand for plotted developments is on a rise.
- **Housing requirements may rise in Tier II-III Cities:** With WFH becoming the new normal, reverse migration is happening across India as working professionals can work from their hometowns. As a result, there may be a rise in housing requirements from the tier II-III cities.
- **Embrace Digital:** The pandemic increased the pace of digital adoption in real estate. Homebuyers are finding it convenient to do virtual site visits and discussions and come in close contact with the real estate developers only during the final stages. As per Anarock, out of 10 virtual site visits done for prospecting, homebuyers are now physically visiting only the top 3 shortlisted projects. The trend is likely to continue going forward.
- **Focus on Affordable-To-Mid-Segment:** Affordable-to-mid-segment housing will continue to remain in demand as homebuyers having an appetite for new property purchases will look to rationalize their quantum of investments. Nearly 70%-75% supply has been in this segment across the top 7 cities of India and that is where the demand lies as well. Amidst stagnant prices and all time low home loan rates at 6.75-7.0%, the affordability is at all-time best.

Sector Challenges

- **Long-pending infrastructure projects:** Indian real estate market has multiple delayed and long-pending infrastructure projects, be it the public sector projects or private sector housing colonies. The major reason being uneven funding and lack of technologies to complete them on time.
- **Outdated building techniques:** Indian real estate is the only sector in the world that still uses old building techniques and is overly dependent on extensive human labour. This, results in regular maintenance. On the contrary, new construction techniques require high-quality building materials such as concrete and iron slabs, which involve less human participation. Therefore, it is crucial that developers rely on modern building techniques to reduce construction time and labour cost and ensure faster deliveries.

- **Unavailability of land:** Land availability within city areas continues to be a big challenge where the residential and commercial space demand stands highest. In addition, rising land prices along with increasing construction costs are rendering projects unviable for developers as well as property purchasers.

INDIAN RESIDENTIAL REAL ESTATE MARKET

The COVID-19 nearly stalled business activity across all markets during Q2 2020 and its phased resumption in a weak economic environment weighed heavily on the sales volume. Construction activity had also been similarly crippled during Q2 2020 due to the lockdown and the migration of construction workers from the cities to their hometowns. However, workers started returning to the cities from Q3 2020 as construction sites were allowed to resume operations. Though, the significant latent demand that came to market during the festive season in Q4 2020 led to sales exceeding launches in 2020 as well. Around 154,534 units were sold across the top 8 cities of India. While sales declined by 37% in 2020 compared to 2019, launches declined by 34% in 2020 to 146,628 units.

Indian Residential Sector Performance in 2020 and H1 2021

Launches	146,628	-34%	60,489	103,238	71%
Sales	154,534	-37%	59,538	99,416	67%

Note: Figures represent the top seven cities of India –Mumbai Metro Political Region (MMR), NCR-Delhi, Bengaluru, Chennai, Pune, Hyderabad, Ahmedabad and Kolkata.

The residential market remained resilient during H1 (first half) CY 2021 despite being impacted by a resurgent pandemic. An increased understanding of the pandemic and focus on vaccinations limited the adverse impact on the economy and the residential market in H1 2021. The residential market has seen a robust growth rather than a major obstruction, especially as sales volumes have shown a strong growth of 67% YoY to 99,416 units in H1 2021.

Homebuyers have displayed a strong preference for ready inventory to hedge any execution risk by developers. The share of sales of homes costing less than ₹ 50 lakh constituted 42% of all sales in the H1 2021 period. Homes costing over ₹ 1 Crore constituted about 19% of all sales, while units at ₹ 50 lakh to ₹ 1 Crore improved to 39%. The near-term outlook of sales remains cautiously optimistic, as buyers increasingly hunt for good deals in the backdrop of a slowly stabilising economic environment.

NCR (NATIONAL CAPITAL REGION) RESIDENTIAL REAL ESTATE

The units sold in National Capital Region (NCR)'s primary residential market stood at 21,234 in 2020, representing a 50% decline over 2019. After a turbulent H1 2020, the NCR's residential real estate market started showing signs of the pent-up demand translating into a healthy sales velocity, especially in H2 2020. While both sales and launches remained historically low in the wake of the pandemic, cheaper home loans, lower pricing and pent-up demand led to a faster recovery in sales and a decline in unsold inventory by 9% annually over 2019.

In H1 2021, sales of residential units in NCR's primary market nearly doubled compared to the H1 2020 volume. With panic due to the second wave, sales momentum was impacted towards the end of Q1 2021. However, unlike 2020, conversion of residential enquiries into sales cushioned the residential market in Q2 2021. The downward trend of unsold inventory witnessed since 2016, continued in H1 2021. With a 13% YoY decline, unsold inventory stood at 102,143 units for the NCR market in H1 2021.

Gurugram registered a moderate drop in its share of new launches in H1 2021. However, it still accounted for the largest share in total new launches in H1 2021 at 31%. On a YoY basis, new residential sales in Gurugram have grown nearly 2.5 times in volume. Since the past two years, new project launches in Noida have also slowed down. In H1 2021, its share decreased to 28% of the NCR total.

INDIAN COMMERCIAL REAL ESTATE MARKET

The office market which has arguably been the best performing real estate property type during last decade, hit a major roadblock in H1 2020 due to COVID-19 pandemic. It posed a challenge for demand in 2020 and some corporates to re-explore their office space requirement. Transactions fell 35% YoY to a six-year low of 3.7 mn sq m (39.4 mn sq ft) in 2020, while new completions dropped 42% YoY. The year 2020 saw occupiers adapting to the pandemic induced restrictions by being much more flexible about their need for location, normal work hours and physical interactions. However, with definite visibility of a viable vaccine being made available in 2021, occupiers begun scouting for expansion opportunities, as evidenced by the strong transaction activity in Q4 2020

NCR COMMERCIAL REAL ESTATE

In National Capital Region (NCR), the gross leasing declined 46% to 0.43 mn sq m in 2020. The pandemic outbreak had led to a sharp fall in the leasing activities in NCR, the maximum brunt of which was borne in Q2 2020 when the lockdown was imposed. The NCR's office market witnessed the prevalence of positive occupier sentiment in H2 2020. The gradual return to normalcy has paved the way for a recovery in this asset class amidst cautious decision-making by occupiers. In the wake of the pandemic, the trend of diversifying across multiple small offices is also emerging in NCR.

Over the past few years, Gurgaon and Noida have emerged as business hotspots, welcoming many MNCs, Indian companies as well as start-ups to set up their office(s) in business parks. Also, commercial real estate segment has performed much better than residential realty in terms of Return on Investment (ROI) over the last few years. The primary reasons being proximity of NCR to the national capital and availability of modern options for commercial office spaces. In keeping with past trends, Gurugram and Noida continued to dominate the overall leasing in H2 2020 with a 45% and 43% share respectively. Secondary Business District (SBD) of Delhi and Central Business District (CBD) of Delhi accounted for the remaining 10% and 2% share.

INDIAN DATA CENTRE INDUSTRY

Data centres have been one of the real estate asset classes that is least affected despite COVID-19, indicating their crucial role in supporting continued business activity. With the growing reliance on digital connectivity on account of COVID-19 and work from home phenomenon, the data centre industry in India is expected to grow exponentially.

Data centres in India currently occupies over 7.5 million sq ft area consuming over 650 MW power, while more than 8 million sq ft and 870 MW capacity of data centres are under construction and are likely to be online between 2021-2025. With proposed development of over 10 million sq ft for 1,200 MW, the country is on its path of achieve 3,000 MW data centre capacity in near future. Demand is likely to ramp up further due to the imminent rollout of 5G, IoT-linked devices, data localisation and cloud adoption. At present, the data centre industry is buoyant in cities such as Mumbai, Chennai, Delhi NCR, Bengaluru and Hyderabad. Kolkata and Pune are some of the key upcoming cities. Indian Data Centre market investments are expected to grow at a CAGR of 5% to reach about US\$ 5 billion per annum by 2025.

Key Growth Drivers of the Industry

- **Growing internet and mobile broadband penetration in India:** As per the Nokia Mobile Broadband Index, 2021, India has 702 million mobile broadband users and broadband penetration at 45% as of December 2019. This is significantly lower compared to China at 95%, and European nations that are in the range of 90-110%. The mobile data usage in India is likely to increase further due to increased number of 4G subscribers. India has 755 million internet subscribers, 2nd highest after China worldwide and growing rapidly.
- **Surge in data usage:** According to the Nokia's Mobile Broadband India Traffic Index (MBiT), 2021, the data traffic grew 36% in 2020 in comparison to the previous year, primarily driven by 4G data consumption and addition of millions of data subscribers.
- **Growing Edge Data Centre Demand:** India is increasingly seeing a big opportunity in Edge Data Centres. The Smart City initiatives, adoption of 5G, Internet of Things (IoT) and Artificial Intelligence (AI) are driving the demand for Edge Data Centres.
- **Increased adoption of Cloud Services:** The COVID-19 pandemic has created a shift towards the adaptation of cloud services that are more secure and scalable. According to NASSCOM, cloud spending in India is estimated to grow at a CAGR of 30% to reach US \$7.1 billion in 2022. This is mainly driven by demand for cloud archiving, cloud backup and disaster recovery.
- **Pro-active Government Policies:** The government is planning to roll out a Data Centre policy enabling the private sector to establish Data Centre parks in the country. Many state governments such as Maharashtra, Telangana and Tamil Nadu are already offering several incentive schemes for setting up Data Centre parks in their states. Further, the initiatives such as Digital India, emphasize on self-reliance and data protection through data localization is expected to increase the volume of data in the country, which will result in an increased demand for Data Centre and Cloud services.

Outlook

Given the country's rich network connectivity, cost advantage, availability of skilled labour, low climate risk and strong data protection laws, India is well positioned to serve as a regional Data Centre hub in Asia and likely to attract significant Data Centre investments. The demand for Data Centre space requirement to increase by around 15-18 million sq. ft. across the major cities in the next 4-5 years.

INDIAN WAREHOUSE SECTOR

Warehouses remain an attractive investment grade real estate asset class in India. However, the lockdown in Q1 FY 2020-21 that impacted economic activity and consumer sentiments and the second wave of the pandemic towards the end of FY 2020-21 had an adverse impact on occupier demand. According to Knight Frank Research, the eight primary markets of India held an estimated 31 mn sq m (329 mn sq ft) of warehousing stock at the end of FY 2020-21. Mumbai and NCR markets accounts for 60% of the total stock. The vacancy levels in these markets are relatively low and their high weightage in the total stock keeps the combined vacancy level of all eight cities at a comparatively healthy. However, the vacancy level has moved up by 130 basis points YoY to 16.6% in FY 2020-21 due to weaker transaction activity during the year.

The threat of disruption in sales caused potential occupiers to curtail non-core expenses and defer expansion plans of current capacities, causing transaction activity to drop 23% YoY in FY 2020-21. This drop in demand also caused rents to decline across most markets. It is also noteworthy that despite the significant YoY fall in transaction volumes in FY 2020-21, demand has grown at a CAGR of 23% during the FY 2017-2021 period. The warehousing and logistics market in India started gaining impetus with highest supply and absorption in the Q4 of 2020.

Total warehousing transactions across the 8 primary markets (mn sq m)

Source: Knight Frank Research

Annual transactions are expected to grow at a CAGR of 19% from 2.95 mn sq m (31.7 mn sq ft) in FY 2020-21 to 7.08 mn sq m (76.2 mn sq ft) in FY 2025-26. The e-commerce sector is expected to see the maximum growth in warehousing transaction volumes among all sectors over the FY 2022-26 period, with its share of annual transactions growing from 31% in FY 2020-21 to 37% in FY 2025-26. Most consumers that were forced to shop online will continue to do so and the existing brick-and-mortar stores will also look to leverage online channels to push sales. The Third-party logistics (3PL) sector will sustain market share at 30% in FY 2025-26 as e-commerce and other sectors increasingly outsource their warehousing requirements to specialists in the field.

Key Growth Drivers of the Indian Warehousing Industry

The warehousing sector is expected to expand manifold, despite the short-term issues, owing to various factors contributing to its future growth.

- With the government's announcement of "Infrastructural status" to logistics sector, there is an evident spurt in investment in the warehousing domain.
- Government's push towards manufacturing in India and the launch of GST have boosted institutional investment in warehousing.
- India's warehousing segment stands to gain as several countries are considering moving their manufacturing facilities from China to other destinations. India has a good chance to gain from the exit of global giants from China.
- Growing demand for cold chain, pharmaceutical warehouses, as well as growth in e-commerce and organised retail, are likely to drive warehousing demand going forward.

- Even though warehousing demand in Tier II-III Cities has seen growth of 20% in FY 2020, these markets still contribute only around 13% to the overall warehousing demand, leaving ample scope for further growth.

Outlook

The year 2021 is expected to witness an increase in in-city warehouse requirements to cater to the needs of urban population and for faster and last mile delivery. E-commerce warehousing requirements are penetrating deep inside the cities in the busiest of commercial, retail, and residential areas. Constrained supply is also driving re-positioning / usage change of existing assets like malls, high-street retail, marriage halls, auditoriums, showrooms, and workshops. Grade A properties, that have been in demand in 2020, are anticipated to see increase in the coming years due to changing developer preferences and adherence to safety and hygiene norms during COVID-19. Specialized storage including cold chain industry as well as Omni-channel retail focused warehouses are the other new areas gaining attraction.

Source: Knight Frank Research

NCR WAREHOUSING MARKET

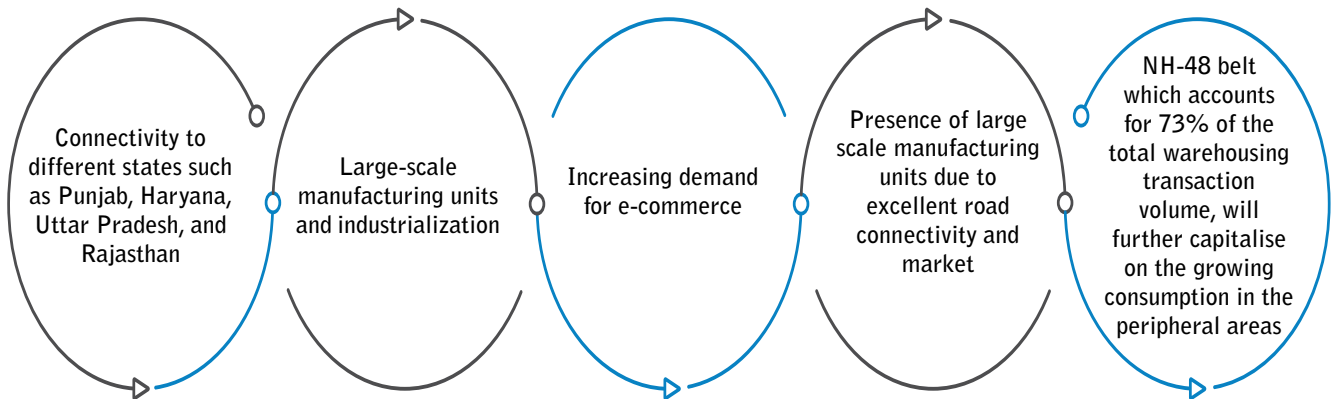

NCR's total warehousing transaction volume declined by 20% YoY to 6.9 mn sq ft (0.64 mn sq m) in FY 2020-21. This is largely due to delayed decision making by some occupiers across sectors due to pandemic, which led to deferment of new leasing decisions. E-commerce remained the biggest demand driver with a 61% share in warehousing transaction volume, followed by 3PL at 26%. The significant shift to online shopping in one of India's most tech savvy regions, has led many e-commerce companies and 3PL giants to expand footprint in 2020 to drive volumes and last mile deliveries.

Competitive Strengths

- Premium Land bank in NCR at competitive price:** In line with the growth aspirations, over the years the Company has built the largest, fully paid, ready-to-develop land bank in prime locations of NCR having proximity to airports and highways. The possession of this low cost land bank has facilitated the Company to significantly reduce its capex and majorly focus over working capital requirements and project execution costs. Moreover, it has facilitated capitalising opportunities in the highly demanded mid and affordable housing segment.
- Widely distributed business portfolio:** ARL has a well-diversified portfolio spread across residential, commercial, IT/logistics, hospitality, townships, and malls. Such asset base provide steady cash flow generation through lease and rental income and property sales along with the advantage of capital appreciation.
- Strong execution capability across verticals:** The Company has developed strong brand reputation over 50 years with an impeccable track record. With valuable experience, the Company has developed its expertise in the NCR market to assist the entire value chain from land procurement to asset maintenance. ARL is facilitated by its highly skilled in-house construction team of engineers, architects, designers, and other associated employees. The Company's execution capability is further strengthened by its robust IT platform and deep relations with raw material suppliers.

Business Strategies

- Strengthening portfolio with world class Data Centres (DC):** Increasing data generation and huge requirement for local storage along with government support is unleashing opportunities in the data storage outsourcing space in India. The Company aims to develop world-class facilities that provide cost effective data storage, with added advantage of zero maintenance, high-end protection and risk management. To fulfill the demand for DC, the Company plans to utilise its existing building space to develop Tier III and Tier IV Data Centres. The first Tier III certified data centre at IT Park Manesar's will started its first phase operational in 2021. ARL is also looking at a strategic alliance with an international partner having strong expertise and technical know-how in developing data centres as per top industry standards.
- Offering Customised and integrated Warehousing:** There is an increasing demand for high-quality warehousing and cold chain space in line with the significant growth in e-commerce, GST implementation and huge loss due to wastage of perishable items. ARL is well-positioned to capitalize on warehousing rental opportunity due to its experience of developing a large single location warehouse and having fully-paid freehold land in Delhi and Haryana in proximity to major trade corridors.
- Entering strategic partnerships:** The Company focuses on driving income growth while improving balance sheet position. For this, it has entered strategic partnerships for developing projects on its land bank. It has entered into 50:50 joint venture agreement (JV) named as "Avarna Projects LLP with Birla Estates Private Limited for developing 764 luxury floors built over 191 plots in its sector 63 A Township. The project is expected to generate ~₹ 2,200 Crore revenues. ARL also entered a JV with Adani Group

to develop 1,600 affordable homes across 11.76 acres land with a saleable area of 1.3 msf at its Gurugram land bank. The Company will be focused on exploring more such opportunities.

- Focus on enhancing occupancy of commercial property:** The Company has developed about 5.5 msf of commercial space in prime locations of Delhi and NCR, of which around 30% is leased. ARL has Grade A commercial assets that include three IT Parks at Rai, Manesar and Panchkula, one shopping mall in Karol Bagh, Commercial Building at Sector 44 Gurugram and two hotels that provide steady rental income. The Company primarily focuses on enhancing occupancy to ensure higher steady cash flows. The demand for ready-to-occupy commercial space is likely to increase in the post COVID-19 era which may allow the Company to increase leases as well.
- Grow the affordable housing segment:** ARL is one of the pioneers in delivering affordable homes well in line with the government's vision of "Housing for all". It has successfully delivered 2,600 affordable homes at Neemrana, Rajasthan. Owing to its expertise in the segment, the Company has also bagged a project from APIIC (Andhra Pradesh Industrial Infrastructure Corporation) to develop 2,000 affordable homes in the holy and auspicious city of Tirupati (Andhra Pradesh). With land cost being the major hurdle to develop affordable housing, the Company is well positioned in this space with its low-cost land bank and proven expertise.

OUTLOOK

The resumption of economic activity, reducing likelihood of further stringent lockdowns and the ramp-up of vaccine programs has dispelled some of the fears associated with the pandemic. Developers are also pursuing aggressive sales strategies by being flexible on prices and payment terms, allowing refundable deposits (on booking) and facilitating homebuyer financing to tide over the ongoing crisis. The COVID-19 pandemic has brought about a fresh appreciation for the need for more personal space.

The residential market has proved resilience during H1 2021 despite being impacted by a resurgent pandemic. Increasing vaccine availability, improved consumer perception for home ownership, low home-loan rates and competitive house prices have brought home-buyers back to the market. In the commercial space, supply is expected to outstrip demand in the near term as the pandemic has led to deferment of leasing decisions. However, the silver lining is that occupants have started calling their employees back to offices which will spur demand going forward.

The rise in usage of smart devices, coupled with increasing amounts of data consumption post COVID-19, has led to a surge in data storage and processing requirements in India, which has widened the role of data centres. Due to a greater internet

penetration across India, e-commerce companies are also betting big on growth in Tier II and III locations, which are becoming the biggest driver of warehousing across country. The demand for Grade A compliant, multi-storied warehouses is likely to increase.

ARL is well positioned with its recognized brand, presence across all real estate verticals and extensive track record among real estate developers. The Company has large fully paid, low-cost land bank in Delhi /NCR in prime location, which support profitability of the projects. Further, to grip benefits from its idle assets, the Company has ventured into a high growth potential segment of Data Centres and Warehousing real estate opportunities as well as entering partnerships for development. Overall, the well-diversified business model, regional focus, proven track record in project execution and completion, partnerships with reputed developers, robust project pipeline under construction along with improving real estate demand would further expand the Company's business in the NCR region.

It ensures adherence to local statutory requirements for orderly and efficient conduct of business, safeguarding of assets, the detection and prevention of frauds and errors, adequacy and completeness of accounting records and timely preparation of reliable financial information. The Company's robust MIS system assists in rigorous monitoring of data to confirm that all major expenses are within the budgeted limits. The efficacy of the internal checks and control systems is validated by and internal auditors and re-examined by the management.

RISK AND MITIGATION

Economic Risk: The demand in real estate sector may be affected due to economic slowdown such as decrease in GDP growth, change in government schemes, inflation levels, availability of consumer financing and interest rates. Although these factors are beyond the control of any entity, but it affects the ability to sell projects at the anticipated time and price, thereby impacting the Company's revenues and profitability margins.

Mitigation: ARL has diversified business portfolio through presence across all major real estate segment. The Company has further entered into Data Centre and Warehousing segment and focusing on affordable housing segment, where the demand is less volatile. ARL has put together an apt combination of people, processes and technology to optimize the business performance that leads to higher sustainable growth. Overall, the Company is managed professionally with regional focus and good execution track record even in the uncertain times.

Liquidity risk: The capital intensive nature of real estate business needs huge investments in land and working capital, which might otherwise hamper smooth continuity of business.

Mitigation: The Company has made a huge investment in land bank, which forms a major part of the project cost. ARL has fully paid, ready for development land bank at its disposal which was acquired at low cost. This ensures that it is now required to incur only the project development cost. The current market value of the land bank is significantly higher than the book value of debt. In addition, lease and rental income from commercial properties meet the working capital requirements. Further, the Company has also adopted the strategy of partnership model of project development which ensures development cost split and thus lower capital commitment and minimal capital blockage for the Company.

Execution Risk: Real Estate sector is heavily regulated that requires multiple approvals and compliances that may vary based on project location. Being a highly regulated industry, the delay in regulatory approval, clearances, labour availability, and access to utilities like water and electricity, lead to cost overruns, which further lead to delays/stalling of project launches.

Mitigation: The Company mitigate this risk by undertaking a thorough and diligent approach towards land acquisition and by following transparent processes in developing the projects. The Company has strong dedicated teams to ensure timely and effective compliances. With a brand leadership and regional concentration in NCR, ARL enjoys smoother approval process and superior execution cycle. Also, the Company has been successful in securing customers trust and minimizing inventory pileup. With an intention to effectively utilize its existing idle inventory, ARL has also ventured into the new businesses of developing Data Centres and Warehousing spaces.

Input Risk: Increase in price of raw materials used in construction and labour cost may affect the profit margin of the Company.

Mitigation: The Company has long-term healthy relationship with major suppliers for timely supply of quality raw material and competitive prices.

Quality risk: Inability of the Company to maintain high quality standards will damage its reputation and lead to inventory pile-up.

Mitigation: ARL is committed towards best-in-class quality control processes and systems to achieve the maximum customer satisfaction. The Company is well known for the highest quality and timely delivery of projects. It has an efficient and highly skilled in-house construction team of engineers, architects, designers, and other associated employees along with a strong IT platform. The Company continues to benchmark itself with global best practices and invest in high-end technologies to further strengthening its quality system.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Emphasis of matter

We draw attention to Note 43 of the standalone financial statements which states that the Hon'ble Chandigarh Bench of the National Company Law Tribunal at Chandigarh vide its Order dated and pronounced on 24th August, 2020 ("Order") had sanctioned the Composite Scheme for Arrangement involving the amalgamation of Anant Raj Agencies Private Limited ("ARAPL") with and into Anant Raj Limited ("ARL" or "Company") and immediately thereupon, the demerger of the Project Division of ARL and vesting thereof into Anant Raj Global Limited ("ARGL"). In terms of Clause 8. I of Chapter 3 of the Scheme, effective from August 25, 2020, in consideration for the demerger of the Project Division and vesting thereof into ARGL, ARGL has issued and allotted equity shares of face value ₹ 2/- each credited as fully paid up of ARGL, in the ratio of 1 (one) equity share of the face value of ₹ 2/- each of ARGL for every 1 (one) equity share of face value ₹ 2/- credited as fully paid up of ARL, to the equity shareholders of ARL (whose names are registered in the register of members of ARL as on the Record Date i.e. October 7, 2020). The equity shares of Anant Raj Global Limited listed on BSE Limited and National Stock Exchange of India Limited w.e.f. December 18, 2020.

The appointed date for the Composite Scheme for Arrangement as sanctioned by Hon'ble NCLT, Chandigarh, is September 30, 2018. As the Scheme is effective with effect from the Appointed Date, the Company has given effect to the applicable accounting entries in its books of account in accordance with the accounting treatment prescribed in Clause 10 of Chapter 2 of the Scheme and Clause 9 of Chapter 3 of the Scheme, which is in compliance and accordance with the Indian Accounting Standards applicable to the Company as of the Appointed Date of the Scheme.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report, Business Responsibility Report, Corporate Governance and Shareholders' Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise

appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities, selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Company's management and Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to standalone financial statements in place and the operative effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- Conclude on the appropriateness of management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of section 143 (11) of the Act, we give in the Annexure-'A' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, based on our audit report we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss including Other Comprehensive Income, the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on March 31, 2021, taken on record by the Board of Directors, none of the directors is disqualified as

on March 31, 2021, from being appointed as a director in terms of Section 164 (2) of the Act.

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid/provided by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements-Refer Note No. 27 and 33 to the standalone financial statements.
- ii. The Company did not have any material foreseeable losses on long-term contracts including derivative contracts.
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

Annexure 'B' to the Independent Auditor's Report

(Referred to in paragraph (f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Anant Raj Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Anant Raj Limited ("the Company") as of March 31, 2021, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Nature and purpose of Reserves

Capital Reserve

Capital reserve represents amount transferred from the transferor companies pursuant to various schemes of amalgamations and demerger. It is utilised in accordance with the provisions of Companies Act, 2013.

General Reserve

Under the erstwhile Indian Companies Act, 1956, a general reserve was created through an annual transfer of net profit at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act, 2013, the requirement of mandatory transfer of a specified percentage of the net profit to general reserve has been withdrawn though the Company may transfer such percentage of its profits for the financial year as it may consider appropriate. Declaration of dividend out of such reserve shall not be made except in accordance with rules prescribed in this behalf under the Companies Act, 2013.

Securities Premium Reserve

Securities premium reserve is created due to premium on issue of shares. These reserves is utilised in accordance with the provisions of the Companies Act, 2013.

Retained Earnings

Retained earnings are the profits and gains that the Company has earned till date less any transfer to general reserve, dividends or other distributions paid to shareholders.

Notes forming part of the standalone financial statements

1 Company overview

The Company is a public Company domiciled in India and is incorporated under the provisions of the Companies Act, 1956. The Company has its primary listings on the BSE Limited and National Stock Exchange of India Limited.

The Company is primarily engaged in development and construction of information and technology parks, hospitality projects, residential townships, data centres, affordable housing, office complexes and shopping malls in the State of Delhi, Haryana, Andhra Pradesh, Rajasthan and the National Capital Region.

The standalone financial statements are approved for issue by the Company's Board of Directors on June 30, 2021.

2 Significant Accounting policies

(a) Basis of preparation of financial statements

These standalone financial statements are prepared in accordance with Indian Accounting Standard (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act') and guidelines issued by the Securities and Exchange Board of India (SEBI). The standalone financial statements have been prepared on a going concern basis in accordance with accounting principles generally accepted in India. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, and relevant amendment rules issued there after.

Accounting policies have been consistently applied except where a newly issued Accounting Standard is initially adopted or a revision to an existing Accounting Standard requires a change in the Accounting policies hitherto in use.

The standalone financial statements are presented in Indian Rupees, which is also functional currency. All amounts have been rounded off to the nearest ₹ lakhs, unless otherwise indicated.

(b) Use of estimates

The preparation of the standalone financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts

of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note C. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the standalone financial statements.

Estimation of uncertainties relating to pandemic from COVID-19

The Company has considered the possible effects that may result from the pandemic, COVID-19, in the preparation of these standalone financial statements including the recoverability of carrying amounts of financial and non financial assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company has, at the date of approval of these financial statements, used internal and external sources of information including credit reports and related information and economic forecasts and expects that the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these standalone financial statements.

(c) Critical accounting estimates

(i) Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgement.

The Company uses the percentage-of-completion method in accounting for other fixed-price contracts.

Notes forming part of the standalone financial statements

Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated expended have been used to measure progress towards completion total efforts or costs to be incurred. Efforts or costs as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

(ii) Allowance for credit losses on receivables and unbilled revenue

The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considered current and anticipated future economic conditions relating to industries the Company deals with. In calculating expected credit loss, the Company has also considered credit reports and other related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID-19.

(d) Property plant and equipment

Property, plant and equipment are stated at their cost of acquisition/construction, net of accumulated depreciation and impairment losses, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. Capital work-in-progress represents expenditure incurred in respect of capital projects which are carried at cost. Cost includes land, related acquisition expenses, development and construction costs, borrowing costs and other direct expenditure.

Advances paid towards acquisition of property, plant and equipment outstanding at each Balance Sheet date are disclosed as Capital Advances under 'Other Non-Current Assets' and cost of fixed assets not yet ready for their intended use as at the reporting date are disclosed under 'Capital Work in Progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are

recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

Depreciation on fixed assets is charged in accordance with estimate of useful life of the assets on written down value method, at rates specified in Schedule II of the Act. Depreciation on assets purchased/sold during a period is proportionately charged.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

(e) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably.

The Company discloses the fair value of investment properties in notes to the financial statements. Fair values are determined based on annual evaluation performed by the management.

Investment properties are derecognized either when they have been disposed off or when they have been permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between net disposal proceeds and the carrying amount of the asset is recognised in the Statement of Profit and Loss in the period of derecognition.

(f) Financial instruments

(i) Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Notes forming part of the standalone financial statements

(ii) Subsequent measurement

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Investments in equity instruments of subsidiaries, joint ventures and associates

Investments in subsidiaries, are stated at cost less provision for impairment losses, if any. Investments are tested for impairment whenever an event or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of investments exceeds its recoverable amount. If, in a subsequent period, recoverable amount equals or exceeds the carrying amount, the impairment loss recognised is reversed accordingly. Investments in equity instruments of subsidiaries, joint ventures and associates are accounted for at cost in accordance with Ind AS-27 'Separate Financial Instruments'.

(iii) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit or loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(iv) Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition in accordance with Ind AS 109 "Financial Instruments" issued by the Ministry of Corporate Affairs, Government of India. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

(g) Impairment

(i) Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

(ii) Non-financial assets

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss, if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

(h) Provisions and contingent liabilities

Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Notes forming part of the standalone financial statements

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements. Contingent assets are neither recognised nor disclosed in the financial statements.

(i) Inventories

Real Estate: Lower of cost or net market value; Cost includes cost of acquisition and other related expenses incurred in bringing the inventories to their present location and condition. Net market value is the estimated selling price in the ordinary course of business.

Constructed/Under Construction Properties: Lower of cost or net realisable value. Cost includes the cost of land, internal development cost, external development charges, construction costs, overheads, borrowing costs and development/ construction material.

Development Rights: At cost of acquisition, including cost of acquiring rights of any interested party. Development rights are considered to have been acquired on execution of a Development Agreement upon vesting of irrevocable rights in the Company to construct, market, and sell the development over land and realize and retain the economic and other benefits.

(j) Unbilled receivables

Unbilled receivables represent revenue recognized based on Percentage of Completion of Construction Method [Para (k) below], to the extent the work completed exceeds billed receivables.

(k) Revenue recognition

(i) Revenue from contracts from customers

Pursuant to the application of Ind AS-115, the Company has applied following accounting policy for revenue recognition:

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- (a) The customer simultaneously receives and consumes the benefits provided by the Company's performance as the entity performs; or
- (b) The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- (c) The Company's performance does not create an asset with an alternative use to the Company and the entity has an enforceable right to payment for performance completed to date.

For performance obligations, where one of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

Revenue is recognised either at point of time and over a period to time based on various conditions as included in the contracts with customers.

(ii) Others

- (a) Revenues from sale of investment properties and assets to the extent of sale consideration reduced by the respective costs thereof in each case, being value inclusive of cost of acquisition, and construction and development cost thereof.
- (b) Forfeiture due to non fulfilment of obligations by counter parties is accounted as Revenue on unconditional appropriation.
- (c) Revenues from rentals are recognised on accrual basis in accordance with terms of agreements executed with respective tenants.
- (d) Service receipts and interest from customers is accounted for on accrual basis.
- (e) Divided income is recognised when the shareholder or unit holder's right to receive payment is established, which is generally when shareholder approve the dividend.
- (f) Share of profit/loss from firm in which the Company is a partner is accounted for in the financial year ending on the date of the Balance Sheet.

Notes forming part of the standalone financial statements

- (g) Interest income is recognized using effective interest method.
- (h) Interest on arrears of allotment money is accounted in the year of receipt.

(iii) Revenue from fixed-price, fixed-time frame contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Maintenance revenue is recognized rateably over the term of the underlying maintenance arrangement.

(l) Claims

Claims lodged by and lodged against the Company are accounted in the year of payment or settlement thereof.

(m) Borrowing costs

Borrowing costs directly attributable to the acquisition and/or construction/production of qualifying assets which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. All other borrowing costs are charged to Statement of Profit and Loss as incurred. Borrowing consist of interest and other costs that the Company incurs in connection with the borrowings of funds.

(n) Employee benefits

Benefits such as salaries, wages and short term compensations etc. and the expected cost of ex-gratia is recognized in the period in which the employee renders the related service.

The Company's Gratuity and Leave encashment schemes are defined benefit plans. The Company provides for gratuity covering eligible employees on the basis of actuarial valuation as carried out by an independent actuary using the Projected Unit Credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans is based on the market yields on Government securities as at the Balance Sheet date.

The liability is un-funded. Actuarial gains and losses arising through re-measurement of net defined benefit liability/ (assets) are recognised in 'Other Comprehensive Income'. Leave encashment benefits payable to employees of the Company with respect to accumulated leave outstanding at the year end are accounted for on the basis of an actuarial valuation as at the Balance Sheet date. Contributions payable by the Company to the concerned government authorities in respect of provident fund, family pension fund and employees state insurance are defined contribution plans. The contributions are recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service. The Company does not have any further obligation in this respect, beyond such contribution. Other employee benefits are accounted for on accrual basis.

(o) Foreign currency translation

On initial recognition, all foreign currency transactions are translated in to the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the Standalone Statement of Profit and Loss.

(p) Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in 'Other Comprehensive Income'. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become

Notes forming part of the standalone financial statements

deductible. The Company considers expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of deferred tax assets considered realisable, however, could reduce in the near term if estimates of future taxable income during the carry-forward period are reduced.

(q) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank, cash in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. Short-term deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the Company, and earn interest at the respective short-term deposit rates.

(r) Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

(s) Dividends

Dividend on equity shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

(t) Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at

a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

(u) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

(v) Segment reporting

Operating segments are reported in the manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The Managing Director of the Company has been identified as CODM and he is responsible for allocating the resources, assess the financial performance and position of the Company and makes strategic decisions. The Company has identified one reportable segment "Real Estate" based on the information reviewed by the CODM. Refer Note no. 45 for the Segment information presented.

(w) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- (a) Expected to be realised or intended to be sold or consumed in normal operating cycle;

Notes forming part of the standalone financial statements

- (b) Held primarily for the purpose of trading;
- (c) Expected to be realised within twelve months after the reporting period; or
- (d) Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- (a) It is expected to be settled in normal operating cycle;
- (b) It is held primarily for the purpose of trading;
- (c) It is due to be settled within twelve months after the reporting period; or
- (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

x) Recent Pronouncements

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

Balance Sheet:

- (a) Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- (b) Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- (c) Specified format for disclosure of shareholding of promoters.
- (d) Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- (e) If a Company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- (f) Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of Profit and Loss:

- (a) Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of financial statements.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

- (b) Right, preference and restrictions attached to shares

The Company has only one class of equity shares having a par value of ₹ 2 each. Each shareholder is eligible for one vote per share held and carry a right of dividend. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend.

In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

Notes forming part of the standalone financial statements

(c) Dividend

The final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividend is recorded as a liability on the date of declaration by the Company's Board of Directors. Income tax consequences of dividends on financial instruments classified as equity will be recognized according to where the entity originally recognized those past transactions or events that generated distributable profits.

The Company declares and pays dividends in Indian rupees. The Finance Act 2020, has repealed the Dividend Distribution Tax (DDT). Companies are now required to pay/distribute dividend after deducting applicable taxes. The remittance of dividends outside India is also subject to withholding tax at applicable rates.

The Board of Directors in their meeting on June 30, 2021, recommended a final dividend of ₹ 0.1 per equity share (i.e. 5% on ₹ 2/- fully paid up share) for the financial year ended March 31, 2021. This payment is subject to the approval of shareholders in the ensuing Annual General Meeting of the Company and if approved would result in a net cash outflow of approximately ₹ 2.951 crores.

- 43 The Board of Directors of the Company in its meeting held on August 29, 2018, had approved a Composite Scheme of Arrangement for Amalgamation and Demerger ('Scheme') and subsequently, the Company had filed the Scheme with the Hon'ble National Company Law Tribunal, Chandigarh Bench (NCLT) for its sanction. The Scheme provided for the: (a) amalgamation of Anant Raj Agencies Private Limited (Amalgamating Company) with and into Anant Raj Limited (Company) and, (b) immediately thereupon, demerger of 'Project Division' of the Company into Anant Raj Global Limited (Resulting Company).

The Scheme has been sanctioned by the Hon'ble NCLT, on August 24, 2020, and made effective as per the terms of the Scheme on August 25, 2020. As the Scheme is effective with effect from the Appointed Date (i.e. close of day of September 30, 2018), the Company has given effect to the applicable accounting entries in its books of account in accordance with the accounting treatment prescribed in Clause 10 of Chapter 2 of the Scheme and Clause 9 of Chapter 3 of the Scheme, which is in compliance and accordance with the Indian Accounting Standards (Ind AS) applicable to the Company as of the Appointed Date of the Scheme.

In consideration for the demerger of the Project Division and vesting thereof into Anant Raj Global Limited (ARGL), ARGL has issued and allotted equity shares of face value ₹ 2/- each, credited as fully paid up of ARGL, in the ratio of 1 (one) equity share of the face value of ₹ 2/- each of ARGL for every 1 (one) equity share of face value ₹ 2/- credited as fully paid up of ARL, to the

equity shareholders of ARL (whose names are registered in the register of members of ARL as on the Record Date i.e. October 7, 2020). The equity shares of ARGL listed on BSE Limited and National Stock Exchange of India Limited w.e.f. December 18, 2020

44 Impact of Covid-19

The outbreak of Covid-19 pandemic globally and in India had an adverse impact disrupting life and businesses leading to a slowdown of economic activity. In preparation of these results, the Company has taken into account internal and external source of information to assess possible impact of the pandemic, including but not limited to assessment of liquidity and going concern, recoverable values of its financial and non-financial assets, impact on revenues and estimates of residual costs to complete ongoing projects. Based on current indicators of future economic conditions, the Company expects to fully recover the carrying amount of its assets. Considering the evolving nature of the pandemic, its actual impact in future could be different from that estimated as at the date of approval of these financial results. The Company will continue to closely observe the evolving scenario and take into account any future developments arising out of the same. In spite of all the effects of Covid-19, the Company was able to sustain its operations in a profitable manner.

45 Segment reporting

An operating segment is one whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance. The Company has identified the chief operating decision maker as its Managing Director. The Chief Operating Decision Maker reviews performance of real estate business on an overall business.

As the Company has a single reportable segment, the segment wise disclosure requirements of Ind AS 108 on 'Operating Segment' is not applicable. In compliance to the said standard, Entity-Wise disclosures are as under:

Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.

47 Fair value measurements

The Company uses the following hierarchy for determining and/or disclosing the fair value of financial instruments by valuation techniques:

The following is the basis of categorising the financial instruments measured at fair value into Level 1 to Level 3:

- i) Level 1: This level includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.
- ii) Level 2: This level includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- iii) Level 3: This level includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs).

Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Trade receivables, cash and cash equivalents, other bank balances, loans, other current financial assets, trade payables and other current financial liabilities: Approximate their carrying amounts largely due to short-term maturities of these instruments.

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end.

48 Financial risk management objectives

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support Company's operations. The Company's principal financial assets include inventory, trade and other receivables, cash and cash equivalents and land advances that derive directly from its operations. The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and other price risk, such as equity price risk and commodity/ real-estate risk. Financial instruments affected by market risk include loans and borrowings.

(b) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including refundable joint development deposits, security deposits, loans to employees and other financial instruments. To manage this, the Company periodically assesses financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of financial assets.

Notes forming part of the standalone financial statements

Trade receivables

(i) **Receivables resulting from sale of properties:** Customer credit risk is managed by requiring customers to pay advances before transfer of ownership, therefore, substantially eliminating the Company's credit risk in this respect.

(ii) **Receivables resulting from other than sale of properties:** Credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. The impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively.

(c) Financial Instrument and cash deposits

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, the Company's treasury maintains flexibility in funding by maintaining availability under committed credit lines. The management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows.

49 The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released draft rules for the Code on Social Security, 2020 on November 13, 2020, and has invited suggestions from stake holders which are under active consideration by the Ministry. The Company and its Indian subsidiaries will assess the impact and its evaluation once the subject rules are notified and will give appropriate impact in its financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.

Anant Raj Limited

Report on the Audit of Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Anant Raj Limited (hereinafter referred to as the 'Holding Company') and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), its associates and jointly controlled entities, which comprise the Consolidated Balance Sheet as at March 31, 2021, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statements of such subsidiaries, associates and jointly controlled entities as were audited by the other auditors, the aforesaid consolidated financial statements, give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates and its jointly controlled entities as at March 31, 2021, and their consolidated profit, their consolidated other comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date

Basis for Opinion

We conducted our audit of consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the group, its associates and its jointly controlled entities in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) and the relevant provisions of the Act and Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained along with the consideration of audit reports of the other

auditors referred to in the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of matter

We draw attention to Note 33 of the consolidated financial statements which states that the Hon'ble Chandigarh Bench of the National Company Law Tribunal at Chandigarh vide its Order dated and pronounced on 24th August, 2020 ("Order") had sanctioned the Composite Scheme for Arrangement involving the amalgamation of Anant Raj Agencies Private Limited ("ARAPL") with and into Anant Raj Limited ("ARL" or "Company") and immediately thereupon, the demerger of the Project Division of ARL and vesting thereof into Anant Raj Global Limited ("ARGL"). In terms of Clause 8. I of Chapter 3 of the Scheme, effective from August 25, 2020, in consideration for the demerger of the Project Division and vesting thereof into ARGL, ARGL has issued and allotted equity shares of face value ₹ 2/- each credited as fully paid up of ARGL, in the ratio of 1 (one) equity share of the face value of ₹ 2/- each of ARGL for every 1 (one) equity share of face value ₹ 2/- credited as fully paid up of ARL, to the equity shareholders of ARL (whose names are registered in the register of members of ARL as on the Record Date i.e. October 7, 2020). The equity shares of Anant Raj Global Limited listed on BSE Limited and National Stock Exchange of India Limited w.e.f. December 18, 2020.

The appointed date for the Composite Scheme for Arrangement as sanctioned by Hon'ble NCLT, Chandigarh, is September 30, 2018. As the Scheme is effective with effect from the Appointed Date, the Company has given effect to the applicable accounting entries in its books of account in accordance with the accounting treatment prescribed in Clause 10 of Chapter 2 of the Scheme and Clause 9 of Chapter 3 of the Scheme, which is in compliance and accordance with the Indian Accounting Standards applicable to the Company as of the Appointed Date of the Scheme.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures

to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed and based on the work done/ audit report of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Management's Responsibilities for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act.

The respective Board of Directors of the companies/entities included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for

assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intend to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities is responsible for overseeing the financial reporting process of each company..

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on **whether the Holding company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.**

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- Conclude on the appropriateness of management and Board of Directors use of the going concern basis of accounting

in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and of its associates and jointly controlled entities to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated Financial Statements, including the disclosures, and whether the consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the financial consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (b) of the section titled 'Other Matters' in this audit report.
- We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in sub-paragraph (b) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships

and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Other Matters

Annexure 'A' to the Independent Auditor's Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of the section 143 of the Companies Act, 2013 ("the Act")

Opinion

In conjunction with our audit of the consolidated financial statements of Anant Raj Ltd. (hereinafter referred to as "the Holding Company") as of and for the year ended March 31, 2021, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and such companies incorporated in India under the Act which are its subsidiary companies, its associate companies and its jointly controlled companies, as of that date.

In our opinion, the Holding Company and such companies incorporated in India which are its subsidiary companies, its associate companies and jointly controlled companies, have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at March 31, 2021, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company, its subsidiary companies, its associate companies and its jointly controlled Companies are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based

on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the relevant subsidiary companies, associate companies and jointly controlled companies in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial controls with reference to consolidated financial statements are a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding

prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to 37 (Thirty Seven) subsidiary companies, 1 (One) Jointly Controlled Entity and 3 (Three) associate companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Nature and purpose of Reserves

Capital Reserve

Capital reserve represents amount transferred from the transferor companies pursuant to various schemes of amalgamations and demerger. It is utilised in accordance with the provisions of Companies Act, 2013.

General Reserve

Under the erstwhile Indian Companies Act, 1956, a general reserve was created through an annual transfer of net profit at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act, 2013, the requirement of mandatory transfer of a specified percentage of the net profit to general reserve has been withdrawn though the Company may transfer such percentage of its profits for the financial year as it may consider appropriate. Declaration of dividend out of such reserve shall not be made except in accordance with rules prescribed in this behalf under the Companies Act, 2013.

Securities Premium Reserve

Securities premium reserve is created due to premium on issue of shares. These reserves is utilised in accordance with the provisions of the Companies Act, 2013.

Retained Earnings

Retained earnings are the profits and gains that the Company has earned till date less any transfer to general reserve, dividends or other distributions paid to shareholders.

Notes forming part of the consolidated financial statements

1 Company overview

The Company is a public Company domiciled in India and is incorporated under the provisions of the Companies Act, 1956. The Company has its primary listings on the BSE Limited and National Stock Exchange of India Limited.

The Company is primarily engaged in development and construction of information and technology parks, hospitality projects, residential townships, data centres, affordable housing, office complexes and shopping malls in the State of Delhi, Haryana, Andhra Pradesh, Rajasthan and the National Capital Region.

The consolidated financial statements are approved for issue by the Company's Board of Directors on June 30, 2021.

2 Significant Accounting policies

(a) Basis of preparation of financial statements

The financial statements of the subsidiaries, associates and jointly controlled entities used in the consolidation are upto the same reporting date as that of the Company i.e. March 31, 2021.

These consolidated financial statements (CFS) of the Company are prepared in accordance with the Indian Accounting Standards (Ind AS), under historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 (Act), (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The consolidated financial statements have been prepared on a going concern basis in accordance with accounting principles generally accepted in India. The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, and relevant amendment rules issued thereunder.

Accounting policies have been consistently applied except where a newly issued Accounting Standard is initially adopted or a revision to an existing Accounting Standard requires a change in the Accounting policies hitherto in use.

The consolidated financial statements are presented in Indian Rupees, which is also functional currency. All amounts have been rounded off to the nearest ₹ lakhs, unless otherwise indicated.

(b) Basis of consolidation

The CFS comprise the financial statements of the Company and its subsidiaries as at March 31, 2021. Control is achieved when the Group is exposed, or has rights, to variable returns

from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- (i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee).
- (ii) Exposure, or rights, to variable returns from its involvement with the investee, and
- (iii) The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (i) The contractual arrangement with the other vote holders of the investee.
- (ii) Rights arising from other contractual arrangements.
- (iii) The Group's voting rights and potential voting rights.
- (iv) The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee, if facts and circumstances, indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the CFS from the date the Group gains control until the date the Group ceases to control the subsidiary.

CFS are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the CFS for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the CFS to ensure conformity with the group's accounting policies. The financial statements of all entities used for the purpose

Notes forming part of the consolidated financial statements

of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31. When end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

- (i) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the CFS at the acquisition date.
- (ii) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- (iii) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the CFS. Ind AS12 'Income Taxes' applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- (iv) Profit or loss and each component of 'Other Comprehensive Income' (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if, this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.
- (v) The Company consolidates the entities which it owns or controls. The CFS of the Company, its controlled subsidiaries are disclosed in Note No. 34. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Power

is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the investee's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

- (vi) The financial statements of the Group companies are consolidated on a line-by-line basis and intra-group balances and transaction including unrealized gain/ loss from such transaction are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net asset of subsidiaries that are not, directly or indirectly, owned or controlled by the company, are excluded.
- (vii) Associates are entities over which the Group has significant influence but not control. Investment in associates are accounted for using the equity method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of profit or loss of the investee after the acquisition date. The Group's investment in associates includes goodwill identified on acquisition.

(c) Use of estimates

The preparation of the CFS in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the CFS and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these CFS have been disclosed in Note 'D'. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the CFS in the period in which changes are made and, if material, their effects are disclosed in the notes to the CFS.

Estimation of uncertainties relating to pandemic from COVID-19

The Group has considered the possible effects that may result from the pandemic relating to COVID-19 in the preparation

Notes forming part of the consolidated financial statements

of these consolidated financial statements including the recoverability of carrying amounts of financial and non financial assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the group has, at the date of approval of these financial statements, used internal and external sources of information including credit reports and related information and economic forecasts and expects that the carrying amount of these assets will be recovered. The impact of COVID-19 on the Group's financial statements may differ from that estimated as at the date of approval of these consolidated financial statements.

d) Critical accounting estimates

(i) Revenue recognition

The Group's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Group assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgement.

The Group uses the percentage-of-completion method in accounting for other fixed-price contracts. Use of the percentage-of-completion method requires the Group to determine the actual efforts or costs expended to date as a proportion of the estimated expended have been used to measure progress towards completion total efforts or costs to be incurred. Efforts or costs as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

(ii) Allowance for credit losses on receivables and unbilled revenue

The Group determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Group considered current and anticipated future economic conditions relating to industries the Group

deals with. In calculating expected credit loss, the Group has also considered credit reports and other related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID-19.

e) Property plant and equipment

Property, plant and equipment are stated at their cost of acquisition/construction, net of accumulated depreciation and impairment losses, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. Capital work-in-progress represents expenditure incurred in respect of capital projects which are carried at cost. Cost includes land, related acquisition expenses, development and construction costs, borrowing costs and other direct expenditure.

Advances paid towards acquisition of property, plant and equipment outstanding at each Balance Sheet date are disclosed as Capital Advances under 'Other Non-Current Assets' and cost of fixed assets not yet ready for their intended use as at the reporting date are disclosed under 'Capital Work in Progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

Depreciation on fixed assets is charged in accordance with estimate of useful life of the assets on written down value method, at rates specified in Schedule II of the Act. Depreciation on assets purchased/sold during a period is proportionately charged.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

f) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related

Notes forming part of the consolidated financial statements

transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably.

The Group discloses the fair value of investment properties in notes to the consolidated financial statements. Fair values are determined based on annual evaluation performed by the management.

Investment properties are derecognized either when they have been disposed off or when they have been permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between net disposal proceeds and the carrying amount of the asset is recognised in the Statement of Profit and Loss in the period of derecognition.

g) Financial instruments

(i) Initial recognition

The Group recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

(ii) Subsequent measurement

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Investments in equity instruments of subsidiaries, joint ventures and associates

Investments in subsidiaries, are stated at cost less provision for impairment losses, if any. Investments

are tested for impairment whenever an event or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of investments exceeds its recoverable amount. If, in a subsequent period, recoverable amount equals or exceeds the carrying amount, the impairment loss recognised is reversed accordingly.

Investments in equity instruments of subsidiaries, joint ventures and associates are accounted for at cost in accordance with Ind AS-27 'Separate Financial Instruments'.

(iii) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit or loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(iv) Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition in accordance with Ind AS 109 "Financial Instruments" issued by the Ministry of Corporate Affairs, Government of India. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

h) Impairment

(i) Financial assets

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

Notes forming part of the consolidated financial statements

(ii) Non-financial assets

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss, if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

i) Provisions and contingent liabilities

Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements. Contingent assets are neither recognised nor disclosed in the financial statements.

j) Inventories

Real Estate: Lower of cost or net market value; Cost includes cost of acquisition and other related expenses incurred in bringing the inventories to their present location and condition. Net market value is the estimated selling price in the ordinary course of business.

Constructed/Under Construction Properties: Lower of cost or net realisable value. Cost includes the cost of land, internal development cost, external development charges, construction costs, overheads, borrowing costs and development/ construction material.

Development Rights: At cost of acquisition, including cost of acquiring rights of any interested party. Development rights are considered to have been acquired on execution of a Development Agreement upon vesting of irrevocable rights in the Company to construct, market, and sell the development over land and realize and retain the economic and other benefits.

k) Unbilled receivables

Unbilled receivables represent revenue recognized based on Percentage of Completion of Construction Method [Para (l) below], to the extent the work completed exceeds billed receivables.

l) Revenue recognition

(i) Revenue from contracts from customers

Pursuant to the application of Ind AS-115, the Company has applied following accounting policy for revenue recognition:

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- (a) The customer simultaneously receives and consumes the benefits provided by the Company's performance as the entity performs; or
- (b) The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- (c) The Company's performance does not create an asset with an alternative use to the Company and the entity has an enforceable right to payment for performance completed to date.

For performance obligations, where one of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

Notes forming part of the consolidated financial statements

Revenue is recognised either at point of time and over a period to time based on various conditions as included in the contracts with customers.

(ii) Others

- (a) Revenues from sale of investment properties and assets to the extent of sale consideration reduced by the respective costs thereof in each case, being value inclusive of cost of acquisition, and construction and development cost thereof.
 - (b) Forfeiture due to non fulfilment of obligations by counter parties is accounted as Revenue on unconditional appropriation.
 - (c) Revenues from rentals are recognised on accrual basis in accordance with terms of agreements executed with respective tenants.
 - (d) Service receipts and interest from customers is accounted for on accrual basis.
 - (e) Divided income is recognised when the shareholder or unit holder's right to receive payment is established, which is generally when shareholder approve the dividend.
 - (f) Share of profit/loss from firm in which the Company is a partner is accounted for in the financial year ending on the date of the Balance Sheet.
 - (g) Interest income is recognized using effective interest method.
 - (h) Interest on arrears of allotment money is accounted in the year of receipt.
- (iii) Revenue from fixed-price, fixed-time frame contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Maintenance revenue is recognized rateably over the term of the underlying maintenance arrangement.

m) Claims

Claims lodged by and lodged against the Company are accounted in the year of payment or settlement thereof.

n) Borrowing costs

Borrowing costs directly attributable to the acquisition and/or construction/production of qualifying assets which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use. All other borrowing costs are charged to Statement of Profit and Loss as incurred. Borrowing consist of interest and other costs that the Company incurs in connection with the borrowings of funds.

o) Employee benefits

Benefits such as salaries, wages and short term compensations etc. and the expected cost of ex-gratia is recognized in the period in which the employee renders the related service. The Company's Gratuity and Leave encashment schemes are defined benefit plans. The Company provides for gratuity covering eligible employees on the basis of actuarial valuation as carried out by an independent actuary using the Projected Unit Credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans is based on the market yields on Government securities as at the Balance Sheet date.

The liability is un-funded. Actuarial gains and losses arising through re-measurement of net defined benefit liability/(assets) are recognised in 'Other Comprehensive Income'. Leave encashment benefits payable to employees of the Company with respect to accumulated leave outstanding at the year end are accounted for on the basis of an actuarial valuation as at the Balance Sheet date.

Contributions payable by the Company to the concerned government authorities in respect of provident fund, family pension fund and employees state insurance are defined contribution plans. The contributions are recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service. The Company does not have any further obligation in this respect, beyond such contribution. Other employee benefits are accounted for on accrual basis.

Notes forming part of the consolidated financial statements

p) Foreign currency translation

On initial recognition, all foreign currency transactions are translated in to the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the Consolidated Statement of Profit and Loss.

q) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank, cash in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. Short-term deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the Company, and earn interest at the respective short-term deposit rates.

r) Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

s) Dividends

Dividend on equity shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

t) Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in 'Other Comprehensive Income'. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Company considers expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of deferred tax assets considered realisable, however, could reduce in the near term if estimates of future taxable income during the carry-forward period are reduced.

u) Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Group by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

v) Leases

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether

Notes forming part of the consolidated financial statements

the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

w) Segment reporting

Operating segments are reported in the manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The Managing Director of the Company has been identified as CODM and he is responsible for allocating the resources, assess the financial performance and position of the Company and makes strategic decisions. The Company has identified one reportable segment "Real Estate" based on the information reviewed by the CODM. Refer Note no. 43 for the Segment information presented.

x) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- (a) Expected to be realised or intended to be sold or consumed in normal operating cycle;
- (b) Held primarily for the purpose of trading;
- (c) Expected to be realised within twelve months after the reporting period; or
- (d) Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- (a) It is expected to be settled in normal operating cycle;
- (b) It is held primarily for the purpose of trading;
- (c) It is due to be settled within twelve months after the reporting period; or
- (d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

y) Recent Pronouncements

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

Balance Sheet:

- (a) Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- (b) Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- (c) Specified format for disclosure of shareholding of promoters.
- (d) Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- (e) If a Company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- (f) Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of Profit and Loss:

- (a) Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of financial statements.

The amendments are extensive and the Group will evaluate the same to give effect to them as required by law.

(b) Right, preference and restrictions attached to shares

The Company has only one class of equity shares having a par value of ₹ 2 each. Each shareholder is eligible for one vote per share held and carry a right of dividend. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend.

In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

(c) Dividend

The final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividend is recorded as a liability on the date of declaration by the Company's Board of Directors. Income tax consequences of dividends on financial instruments classified as equity will be recognized according to where the entity originally recognized those past transactions or events that generated distributable profits.

The Company declares and pays dividends in Indian rupees. The Finance Act 2020, has repealed the Dividend Distribution Tax (DDT). Companies are now required to pay/distribute dividend after deducting applicable taxes. The remittance of dividends outside India is also subject to withholding tax at applicable rates.

The Board of Directors in their meeting on June 30, 2021, recommended a final dividend of ₹ 0.1 per equity share (i.e. 5% on ₹ 2/- fully paid up share) for the financial year ended March 31, 2021. This payment is subject to the approval of shareholders in the ensuing Annual General Meeting of the Company and if approved would result in a net cash outflow of approximately ₹ 2.951 crores.

41 Impact of Covid-19

The outbreak of Covid-19 pandemic globally and in India had an adverse impact disrupting life and businesses leading to a slowdown of economic activity. In preparation of these results, the Company has taken into account internal and external source of information to assess possible impact of the pandemic, including but not limited to assessment of liquidity and going concern, recoverable values of its financial and non-financial assets, impact on revenues and estimates of residual costs to complete ongoing projects. Based on current indicators of future economic conditions, the Company expects to fully recover the carrying amount of its assets. Considering the evolving nature of the pandemic, its actual impact in future could be different from that estimated as at the date of approval of these financial results. The Company will continue to closely observe the evolving scenario and take into account any future developments arising out of the same. In spite of all the effects of Covid-19, the Company was able to sustain its operations in a profitable manner.

43 Segment reporting

An operating segment is one whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance. The Group has identified the chief operating decision maker as its Managing Director. The Chief Operating Decision Maker reviews performance of Real Estate business on an overall business.

As the Group has a single reportable segment, the segment wise disclosure requirements of Ind AS 108 on Operating Segment is not applicable. In compliance to the said standard, Entity-Wide disclosures are as under:

44 Financial Instruments

Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.

Capital and net debt	4,48,675.18	4,47,737.19
Gearing ratio (Net debt/Capital and Net debt)	44.29%	44.49%

Notes forming part of the consolidated financial statements

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

45 Fair value measurements

The Company uses the following hierarchy for determining and/or disclosing the fair value of financial instruments by valuation techniques:

The following is the basis of categorising the financial instruments measured at fair value into Level 1 to Level 3:

- i) Level 1: This level includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.
- ii) Level 2: This level includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- iii) Level 3: This level includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs).

Notes forming part of the consolidated financial statements

Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Trade receivables, cash and cash equivalents, other bank balances, loans, other current financial assets, trade payables and other current financial liabilities: Approximate their carrying amounts largely due to short-term maturities of these instruments.

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of all the amounts that the Company could have realized or paid in sale transactions as of respective dates. As such, the fair value of the financial instruments subsequent to the respective reporting dates may be different from the amounts reported at each year end.

46 Financial risk management objectives

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance and support Company's operations. The Company's principal financial assets include inventory, trade and other receivables, cash and cash equivalents and land advances that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and other price risk, such as equity price risk and commodity/ real-estate risk. Financial instruments affected by market risk include loans and borrowings.

(b) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including refundable joint development deposits, security deposits, loans to employees and other financial instruments. To manage this, the Company periodically assesses financial reliability of customers and other counter parties, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of financial assets.

Trade receivables

- (i) Receivables resulting from sale of properties: Customer credit risk is managed by requiring customers to pay advances before transfer of ownership, therefore, substantially eliminating the Company's credit risk in this respect.
- (ii) Receivables resulting from other than sale of properties: Credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored. The impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively.

(c) Financial Instrument and cash deposits

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, the Company's treasury maintains flexibility in funding by maintaining availability under committed credit lines. The management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows.
